ROANOKE, VA., June 2t.–Miss Neilia Keister, the young woman who, with Miss Bessle Linkenhoker, was so mysterfously and so badly injured on the road near Clo-verdale on the 8th inst., has at last regained consciousness and was taken to her home at Blacksburg to-day. It was fully expected that her return to consciousness would throw some light on the case, as to whether it was assault or ac-cident. She seems perfectly rational, but, like Miss Linkenhoker, remembers nothing Ellett, of this city, that the charter was secured.

LIFE.

SOPES and UICCPS DRAIN THE SYSTEM,

That old sore or ulcer, which has been a source of pain, worry and anxiety to you for enten years—maybe longer—doesn't heal because you are not using the content of the co five or ten years — maybe longer — doesn't heal because you are not using the proper treatment, but are trying to cure it with salves and washes While these are soothing and relieve pain to some extent, no real, permanent good can come from their use, because the disease is in the blood and far beyond the reach of external applications.

A sore heals promptly when the blood is in good condition, but **never** if it is diseased. The tendency of these old sores and ulcers is to grow worse, spreading and eating deeper into the flesh. They are a constant drain upon the system, gradually but surely ruin the health and sap the very life. A person's capacity for work or pleasure is soon lost in the great desire and search for something to cure. A person's capacity for work or pleasure is soon lost in the great-desire and search for something to cure.

S. S. S. makes a rapid and permanent cure of old sores and ulcers, and is the only medicine that does, because no other can reach deep-seated blood troubles. Ordinary Sarsaparilla and potash mixtures are too weak and watery to overcome a deadly poison that has taken possession of the blood. Do not waste valuable time experimenting with them.

S. S. S. is the only purely vegetable blood purifier known; is made of roots and, herbs of wonderful purifying properties, which no poison can resist. S. S. S. quickly and effectually clears the blood of all morbid, unhealthy humors, and the old, troublesome sore heals.

Some years ago I was shot in the left leg, receiving what I considered only a slight wound. It developed into a running sore and gave me a great deal of pain. I was treated by many doctors, and took a number of blood remedies, but none did me any good. I had heard S. S. S. highly recommended and concluded to give it a trial. The result was truly gratifying. S. S. S. seemed to get right at the trouble, and forced the poison out of my blood; soon afterwards the sore healed up and was cured sound and well. I now have perfect use of the leg, which was swollen and very stiff for a long time. J. H. McBraver, Lawrenceburg, Ky.

At the same time the general health is invigorated and built up. When a little scratch or burt fulls to deal readily, you may be sure your blood is bad. S. S. S. will soon on the ratio of the control of the c
